**Topics Such as ...**

Each week the children will get to make a different type of Slime of their own to take home at the end of the session in their own Mad Science Pots!

Each Slime session will be completely different, so they will never get bored!

Not only will children make the slime, but they will also learn all about what goes into the chemicals that make the slime, how the atoms bond and all about how different chemicals react with each other.

This is a fantastic course, not only as children love to make slime but it's also filled with fun facts, scientific equipment and fast paced reactions which makes for an exciting and educational after school club!

**This will include:**

**Slime**

**Fluffy Slime**

**Polystyrene Slime**

**Glow in the dark Slime**

**Slippery Slime**

**Edible Slime**

6 classes will be covered subject to kit availability. In Extreme circumstances other kits may be given.

**Take Homes to be given in 5 of the 6 lessons**

**Visit Our Facebook, Twitter and You Tube to see our Fun photo's and Videos! @madsciencewm**
