What have Hedgehogs been doing this week?
Here are some of our favourite moments:

Kavneet gives the teddies a seat.

Leonardo builds.

Daphne hammers with gusto.

Tobie uses his body weight to twirl.

Oliver aligns and counts by rote.

Introducing the Spinomatic

We have invested in some new items of equipment which are designed to target core muscle groups, coordination and balance.

This is a giant spinning top which must be propelled by the child him/herself, rather than relying on a friend to push you. So this week the pupils have been experimenting with different ways to make it go.

They have had tremendous fun!

Arjan keeps watch.

Bella pours and splashes.

Mikaeel hitches a lift in the new wheelbarrow.

- Mollie walks it round, which requires tiny adjustments to her body weight and position, to hold her balance.
- Jack sits inside and rocks it from side to side.
- Parker lies like a starfish and uses his legs to power the spin.
- Jasper relaxes upside down to read a book.

Hari feels the silver birch bark.

Amos textures lucky red and gold on to his Chinese New Year rabbit.

Senior School (11-18 years) at Princethorpe College

Junior School (4-11 years) at Crescent School

Junior School and Little Crackers Nursery (2-11 years) at Crackley Hall
