

STEAM Competition

We have an exciting STEAM competition for you to enter.

There are three separate competitions, depending on which year group you are in:

Rec-J2 - Using recyclable materials, design and make a marble/ball run.

Year 3-4: Design and build a bridge that can support a toy car.

Year 5-6: Design a robot that could help with a problem in your school.

Entries can be individual, or a group of maximum six pupils.

Closing date - Monday 27th January 2025.

Entries can be presented in any language, provided an English translation is given.

Each entry should come in two parts:

- A summary (word document, maximum two pages) to explain the project, the problem that you are trying to solve or investigate, and the outcome expected.
- A creative presentation (any format; PowerPoint, video, drawing, flyer...) to demonstrate the process, explore the project, highlight the stages, and introduce the design and the outcome.

Please name your files with the school name followed by the project title e.g. SchoolName_ProjectTitle

Videos must be uploaded to a sharable site such as YouTube, Vimeo or Google Drive, and the URL link copied into the entry form. We cannot accept videos as attachments or download/WeTransfer links.
