

11th September 2020

Here are some of the important bits and bobs you need to know...

If your child has a temperature, or feels unwell, they **must stay at home**. We recognise the importance of building resilience, and the need for 'life to go on', however at this time it is more important that bugs and germs are kept away from nursery. Thank you.
 If you have **calpol**... stay away for **24hrs** please
 If you have **antibiotics**... stay away for **48hrs** please

We will get messy in nursery!
 Easy to wash and easy to wear things are ideal
 Please avoid laces if you can - velcro means:
'I can do it myself!'

What do we do in Nursery?

 Due to the current situation we are having to limit some of the more structured activities that used to regularly take place in nursery, however we are working hard to make sure this has no impact on the important playing and learning that takes place. After much discussion, and the implementation of careful Risk Assessments, the following activities will be happening each week.
Monday: Rugby Tots pm
 (please contact the office for details)
Thursday: Forest School am (Badgers)
Friday: Music am PE pm

What is Forest School?

'Learning experiences outside the classroom are often the most memorable learning experiences helping children to make sense of the world around them, and the person within.'

Forest School offers an inspirational environment that provides all learners with opportunities to develop confidence and self-esteem through hands on learning experiences in a natural setting. It is a specialised learning approach that compliments the wider context of outdoor education. Forest School aims to promote the holistic development of all those involved, fostering resilient, confident, independent and creative learners. This fully supports 'The Attenborough Learner' skills that we aim to develop in all of our children.

 At this current time please park offsite and walk your child in.
 Thank you x

Challenge time!!!
Phonics (Phase 1) focus:
To develop awareness and recollection of sounds in the environment
 Talk about the sounds you hear when you're out and about... at the shops, out for a walk, at the park, in the kitchen etc...

  
 Don't forget spare clothes in a drawstring bag...
 Accidents easily happen!
