In our phonics activities we will look at

Aspect 7 - Oral blending and segmenting

In this aspect, the main aim is to develop oral blending and segmenting skills.

To practise oral blending, the teacher may say some sounds, such as /c/-/u/-/p/ and see whether the children can pick out a cup from a group of objects. For segmenting practise, the teacher may hold up an object such as a sock and ask the children which sounds they can hear in the word sock. The child would then say s/o/ck.

Next weeks sound will be
