

ONE WORLD

One world for caring and helping each and everyone of us,
Neighbours share friendship between each other,
Education will bring children a step forward to life's adventure.

We all have different gifts, skills and ambitions,
Others' talents should be admired,
Respect other faiths and cultures,
Love is the magic ingredient to happiness,
Differences should be celebrated.

Our planet is special,
No-one but ourselves can care for our environment,
Elephants in Ethiopia, armadillos in Argentina, bengal tigers from
Bangladesh are all part of our eco-system.

We must not pollute our planet or cause global warming,
One chance to keep the earth alive,
Respect our environment,
Live together in harmony,
Dare to save the world.
