

Ideas for children moving into Junior 5

Buy a watch or clock for your room and practise telling the time.

Make sure you know all multiplication tables and related division facts.

Research and write about one of the planets in our Solar System. Design an information poster (A4 size), typed or hand written. Return it to your science teacher on the first day back. Please illustrate.

Can you learn the order of the planets?

Find out about the Aztecs and create your own Aztec artwork or jewellery.

Getting Ready for JUNIOR 5

Summer Holiday Home Learning

Crackley Hall School

Pretend you're on holiday in North or South America, and write a postcard to your new teacher – try to include places of interest and activities that you've done.

HINT: you may need to research the location if you have never been there!

Please continue to read every day, and discuss your book with an adult from time to time.

You can also continue to use your Mathletics account.

The attached list of common exception words/ statutory spellings will also be a very good review for the summer.

Happy Holidays!

End of Year 4 Spellings – Make sure these are really secure by the time you return to school in September!
