Faith Grows!

Jesus started growing the kingdom of God with a handful of disciples. Jesus compares God's kingdom with a tiny mustard seed which starts off very small, but, minute by minute, hour by hour, day by day, gets bigger and bigger. Eventually, it grows so large that birds can rest on its branches. It grew from a tiny beginning into something great.

Dear Jesus, thank you for being our friend. Help our faith in you grow bigger and stronger every day. Amen.
